Overview

The Fiber Cabling Project Cost Estimator below will give you an instant, general estimate for your fiber network cabling project. Call 800-614-4560 or contact us here if you need help with this. Fiber-optic cable materials typically cost $1 to $6 per linear foot, depending on fiber count and cable type. Commercial building installations with 100-200 network drops generally range from $15,000 to $30,000. Single-mode fiber costs less per foot than multimode fiber, but it requires more. Fiber4u offers fiber optic cables, rack cabinets, copper cabling data&network solutions, and more with 20 years of experience. This guide presents ranges in USD and practical price estimates to help. How to Lower Your Cabling Costs (Without Losing Quality) If I were buying cable for my own project today, here is my checklist to save money: Stop Over-Specifying: Don't buy armored cable for an indoor, climate-controlled office just because “it sounds safer. ” It's overkill and a waste of budget. Typically, per drop fiber cabling prices range from $250 – $1000 per drop depending on the type of fiber (OM2, OM3, OM4, or OM5), multi or single mode, PVC or plenum, average drop length, and also the number of fibers in each cable.
